

World-class RF Wireless

electronics design, development & manufacturing

that's not a world away.

Solutions for Healthcare, Education, Corporate, and Government.

You don't have to look across the ocean or even across the country for RF Wireless technology. Fleetwood Electronics is right here in Michigan, with the engineering expertise and highly automated production processes to deliver your next project.

Some recent developments:

- Wireless tracking of assets and personnel
- Wireless handheld Electronic Health Record (EHR) reader
- Handheld credential authentication reader

Fleetwood Electronics products are designed, developed, manufactured and assembled in the USA. Which means you get a superior-quality experience from a partner who's conveniently located near your business. To learn more, visit www.fleetwood-electronics.com or call **1.800.257.6390**.
